

Load Cell Overload Check		
	Pin	Resistance (Ohms)
Rab	6 TO 3	
Rac	6 TO 4	
Rbd	3 TO 1	
Rcd	4 TO 1	

Rated Output (mV/V)

Calculated Unbalance (mV/V)

Calculated Zero offset (%)

If	Then
Zero offset > 20%	Load cell = Clearly Damaged
10% < Zero offset < 20%	Load cell = Probable Damage
Zero offset < 10%	Load cell = Not Damaged
