

Load Cell Overload Check		
	Pin	Resistance (Ohms)
<i>Rab</i>	2 to 9	
<i>Rac</i>	1 to 9	
<i>Rbd</i>	2 to 10	
<i>Rcd</i>	1 to 10	

Rated Output (mV/V)

Calculated Unbalance (mV/V) Auto fill

Calculated Zero offset (%)

If	Then
Zero offset > 20%	Load cell = Clearly Damaged
10% < Zero offset < 20%	Load cell = Probable Damage
Zero offset < 10%	Load cell = Not Damaged
